

To: Rader, Jeff
Subject: A path

Jeff,

Seems there's growing protest to PATH going through Medlock and Melton Parks. See email below. Don't know what kind of response Fern got from it.

Is it possible to put a path in (like they did in the Clyde Shepard Nature Preserve) that's not cement? Still put in a bridge that crosses the creek into Mason Mill Park but one that doesn't cause the destruction of PATH construction? I realize it wouldn't be bike friendly, but still hiker friendly.

I feel I need to investigate this alternative in order to represent the feelings of the residents in our neighborhood.

Let me know what you think.

Thanks,
Nancy Ciliax
CHCA
