Pete went back out to Medlock today in response to the proposed re-route of the trail at last night's steering committee meeting. We can avoid the ball field by taking the trail along the western border of the ball field up to the end of the parking lot. This eliminates the buffer intrusion and the clipping of the outfield corner of field # 5.

We will adjust the plans accordingly. We will circulate the revised alignment when available.

Note: this route does NOT end the trail in the center parking area as requested originally by the steering committee. The new route is actually better than the one previously presented.
