**Subject:** RE: Need final version

FYI, I met with Commissioner Radr yesterday, and today with contractors to assess options at the parking lot. The Parks Dept and Commissioner Rader are supportive of the concept of removing a large section of asphalt and limiting vehicular access between the fields. We will submit a plan of action and discuss funding options with the County and advise you of our progress.

thanks,

Ed

I vote yes for the statement. However, this is with the understanding that as much impermeable surface will be taken out of Medlock Park as will be put in with the PATH trail. And as I understand it now, that is what will happen.
